

YOUR PRICE CEILING

EVERYTHING BELOW STAYS UNDER THIS LINE

ON BUDGET GUARANTEE

Most roofing quotes are a starting point. Material costs shift, labor runs long, something unexpected turns up, and suddenly the invoice doesn't match the estimate. **Our quote is a ceiling, not a starting point.** We wrote this guarantee so you know exactly what you're paying for, what's a line-item, and what isn't ours to charge you for in the first place.

01

YOUR QUOTE IS YOUR ROOF

Your signed price covers every shingle, every piece of flashing, every labor hour on the roof. No labor overruns. No mid-job “we found something” surprises.

DECKING IS THE ONE LINE-ITEM

We can't see what's under your shingles until tear-off. The decking price is already listed on your written proposal, so you know exactly what it costs before we start. If we find rot, we show you the photos and explain it before you approve.

03

STRUCTURAL ISN'T OUR SCOPE

Trusses, framing, load-bearing anything. That's not roofing. If we find it, we stop, document it, and refer you to a structural company we trust. You don't pay us for structural.
